Elements & Discovery

Welcome to Elements & Discovery, the university's faculty information system - a platform to collect, analyze, showcase and report all of your scholarly activities.

LSU Elements serves as a faculty expertise portal for each faculty member's teaching, research, scholarly and creative works, and service activities.

The **Discovery Module** provides a global interface for faculty collaboration and integration which allows collaborators to connect with faculty. Faculty members are encouraged to update and maintain their public and searchable profiles.
